

KHUSHI KUMARI

SOFTWARE DEVELOPER

☎+91 8789516665 | ✉sharmakhushi1501@gmail.com | 🔗 LinkedIn | 🐙 Github | 🏆 Leetcode | 📁 Portfolio

PROFILE SUMMARY

Fresher Software Developer skilled in building dynamic single-page applications with React and designing RESTful APIs using Node.js, Express, and MongoDB. Adept at turning product ideas into scalable, production-ready web apps with clean, maintainable JavaScript.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, SQL
- **Frontend Technologies:** React.js, Redux/Redux Toolkit, HTML5, CSS3, Responsive Web Design
- **Backend Technologies:** Node.js, Express.js, REST APIs
- **Database:** MongoDB, MySQL
- **Testing & Tools:** Vitest, React Testing Library, Git, GitHub, Visual Studio Code

PROFESSIONAL EXPERIENCE

Full Stack Web Developer Intern - KodNest, Bangalore

April 2026 - Present

- Built end-to-end features for web applications using React, and JavaScript.
- Developed RESTful endpoints and interactive React components, enabling real-time user data interaction.
- Conducted front-end performance tuning and UI debugging using HTML5, CSS3, and modern browser dev tools.
- Streamlined team development pipelines using Git for version control and collaborative code management.

Frontend Developer Intern - Loom Fashion Pvt. Ltd., Noida

Sept 2025 - Feb 2026

- Developed responsive user interfaces using React.js and Tailwind CSS
- Integrated frontend components with backend APIs using Axios
- Implemented JWT-based authentication for secure user login and session handling
- Created reusable components to improve code maintainability

PROJECTS

InternTrack | React, Node.js, Express.js, MongoDB, JWT

- Developed a full-stack job application management platform using React, Node.js, Express.js, and MongoDB to organize applications and hiring progress.
- Built RESTful APIs with MongoDB/Mongoose to handle application CRUD operations, interview rounds, and follow-up reminders.
- Implemented JWT authentication and protected API routes, ensuring users can securely manage their own application data.
- Added search, filtering, status tracking, interview management, and follow-up reminders to simplify the job application process.

Recipe Diary | Next.js, React, Tailwind CSS

- Built a responsive recipe discovery web application using Next.js App Router
- Integrated TheMealDB API to fetch and display recipes dynamically
- Implemented wishlist functionality using Context API and localStorage
- Optimized images and component structure to improve performance and UX
- Handled edge cases such as empty results and invalid inputs

EDUCATION

B.Tech in Electronics & Communication Engineering

Central University of Karnataka | 2021 – 2025 | CGPA: 9.02

ACHIEVEMENTS

- Ranked 61st in CodeClash 2025, a national-level coding contest
